

The Hedgehog

Revolutionary Fish Refuge

You can catch a fish from it, but the Cormorant can't.

Rust & Rot Free - Lightweight - Simple to Install - Simple to Move - Low Cost
- You Can fish into it.

- The Hedgehog is the new simple way of making a fish refuge at low cost.
- DEFRA funded research has shown refuges can reduce predation by 80%.
- Made of PVC, it has a superior lifespan to metal cages.
- It can be easily installed and moved.
- You can cast into, and catch fish from the Hedgehog without fear of losing fish.
- Any size of fish can use the Hedgehog, bigger fish are not gilled or damaged, which can happen with wire refuges.
- The pipe is black, we do not usually paint them as they soon get covered in algae.
- Place in groups to create a reef, or singly per peg on match fisheries for a feature to cast to.
